POND, Bob

I am a 20 year Falcon resident. I have a science degree and post-graduate qualifications in environmental management. I work locally, and also run a small B'n'B. My family has grown and I now have time to serve my community.

I am a Board Member of the Peel Harvey Catchment Council. I spent 9 years on the Peel Junior Soccer Association management committee, two as President. I am a past member of the City of Mandurah's Environmental Advisory Committee.

I live, work, and play in Mandurah and have a record of community service. I am willing to listen and learn, have management skills, and a knowledge of government to help me effectively represent you.

I describe myself as socially progressive and financially responsible. I want to see the city well governed, its citizens secure with opportunity, and for Mandurah to retain the special sense of place that makes it unique.
