BEAKE, Kerry

I am putting myself forward to represent East Ward to ensure that the unique needs of each component of our community are equally represented.

I love living in Mandurah and have since 2012. I am a 50 year old with a varied and diverse working career, a regular volunteer in various capacities, a mature-aged student who has degree in science, post graduate qualifications in counselling and nutrition. I work casually as a nutrition lecturer with a small private practice while full-time caring for my ageing dad who has Alzheimer's. I feel I have the experience along with the passion to relate to the diversity that makes up this wonderful community.

I offer my willingness to engage, listen and be proactive in my role to represent you and aim to ensure our council is responsible and accountable to us as residents and businesses in this city.
