

# Mental Health and Wellbeing Guide 2025

The Health and Wellbeing Guide has been created by the City of Mandurah to connect you to services that encourage and improve mental health and wellbeing.

All services listed in the Guide are self-referred and are readily accessible.

## GP Support

Your GP is well placed to assist you if you are concerned about your mental health. Here are some tips to guide you through your appointment:

When booking your appointment, it is suggested that you request a longer initial appointment to make sure you have enough time to discuss with your GP

To start, you may want to talk about and ask questions such as:

- The way you have been feeling
- How long you have been feeling this way
- Reasons why you're feeling this way

Some other questions you may want to ask about:

- Self-care and self-help methods
- Some online resources to receive information
- A referral for ongoing support

What you can do between appointments to help with your mental health:

- Self-care and self-help methods, online services such as Beyond Blue etc.
- After hours and crisis support

Your GP may develop a Mental Health Care Plan for you...

A Mental Health Care Plan supports someone going through mental health and wellbeing issues who needs some additional support. This might include:

- Referral to a support service
- Tips, strategies and advice that can support and maintain good mental health and wellbeing
