

As a school principal for over ten years, I have daily insights into the cost of living pressures facing families in East Ward and residents across Mandurah. I am an active participant in a number of community groups and hold a position on the Mandurah Basketball Association board. This experience gives me a deep understanding of the importance of responsibly spending public money and of taking on feedback by listening to the wider community as we work together to improve Mandurah for everyone.

My own childhood memories: starting school at Dudley Park Primary, enjoying foreshore picnics, and leaping off jetties, led my wife, four children, and I to call Mandurah home. This allowed us to be nearer to our parents, as we fully embraced the Mandurah lifestyle. To enhance our city, I am a strong advocate of local events that bring our community together and am committed to sustainable environmental practices that not only protect our natural heritage for future generations but also enhance our appeal as a tourism destination.

Safety is at the forefront of my priorities. I am dedicated to introducing modern measures that foster secure neighbourhoods. This is not just about physical security but also about creating an environment where seniors, families, and youth can all prosper and flourish. Part of this approach involves safer roads and improved transport options that provide better access to our local recreational facilities.

It's a privilege to be principal of Greenfields Primary School and I am committed to supporting education and working collaboratively with local institutions and businesses to create local job opportunities that strengthen our local economy and retain our talented individuals.

As an experienced, results-driven leader, I am dedicated to advancing our community's progress, ensuring safety, and nurturing success. I kindly ask for your vote, as together, we can shape a bright and prosperous future for our community.
