

I've been your representative on Council for the past 12 years, including 6 years as Deputy Mayor. Professionally, I am a Medical Scientist and a graduate of the Australian Institute of Company Directors. Mandurah has been my home for 28 years and the community in which I've raised my children. These experiences provide me with a strong and informed voice to effectively represent our community.

Some of the achievements I am most proud of include:

- Delivery of the Lakelands Park - a first class sporting facility.
- Supporting successful community initiatives such as the Lakelands Community Gardens and the Madora Bay Community Association.
- Improving Mandurah's reputation and stimulating economic activity through projects like the Mandurah Giants.
- Raising youth aspirations and celebrating their success.
- Progressing prudent financial reform through the establishment of a 10 year financial plan.
- By sitting on numerous boards and committees, I provide strong leadership on Council.

I am the Chair of the Peel Harvey Catchment Council, a Commissioner of the West Australian Planning Commission, and a member of the Local Government Advisory Board.

I strongly believe in fostering communities with safe, interconnected neighbourhoods that invest in our youth, care for our seniors, and bolster local businesses, all while being mindful of the cost-of-living pressures we all encounter.

I will:

- Actively listen to residents and make evidence-based decisions.
- Ensure prudent financial management to keep rates as low as possible.
- Protect our uniquely biodiverse waterways, coastlines, and bushland.
- Champion community safety initiatives.
- Lobby hard for funding for the pedestrian footbridge joining Lakelands and Madora Bay.
- Work hard for a shared future that is safe and prosperous for all in our community.

I am committed to community wellbeing, environmental health, and our shared future. I'm seeking your continued support.
