

Mandurah is undergoing positive change, but there's more to be done to address crime, grow our economy and protect our environment.

I'm an engaged resident of Mandurah – was educated locally and lived here all my life. I'm an experienced company director and graduated from Murdoch and UWA with degrees in law, business and public policy. I have a legal career in the not-for-profit, local government and university sectors, and volunteer on the Mandurah Performing Arts Centre and other community boards.

I've been proud to be your Councillor for the last ten years - taking an independent, common sense and community minded approach to my duties.

I've led governance and financial reforms at the City – I currently Chair the City's Audit and Risk Committee, and have secured the financial sustainability of the City through our new 10-Year Long-Term Financial Plan.

I've focused on our economy - creating jobs, reducing unemployment and assisting small business. We've delivered the exciting waterfront redevelopment, new City Parking Plan, Smart Street Mall upgrade and the Giants of Mandurah project. I've championed adding vibrancy to our developing city centre through activation, food trucks and winter ice rink.

I understand the cost of living pressures faced by residents, and have fought to cut wasteful spending and kept rates below inflation - keeping more money in your pocket.

I'll deliver the Doddi's Foreshore upgrade, tackle antisocial behaviour, improve youth opportunities, strengthen tourism, protect our beaches and waterways, and address health and homelessness issues. I also believe Council has an important role to play on issues such as community safety, business growth, traffic management, and mosquito management.

82% of residents believe that Mandurah is a great place to live. I want to support the City to continue delivering as a leader in the areas of events and festivals (eg. Crabfest), high-quality rubbish collection and provision of services and facilities.
