KNIGHT, Caroline

I'm proud of Mandurah and believe in our community.

I've been your Councillor for the past 8 years and am privileged to be your Deputy Mayor. I'm Chairperson of the Peel Harvey Catchment Council, a Deputy Commissioner of the WA Planning Commission and Council's representative on national environmental bodies.

Being a Medical Scientist I'm a passionate advocate of healthy, active, connected communities that are sustainable, respecting the natural environment of our region and its precious waterways.

I've been proactive in the delivery of the Lakelands Library, new sporting reserves, opportunities for young people and fought for community planning interests.

I listen carefully, act for all residents, making sound independent decisions to ensure the best facilities and services are delivered.

I'm committed to keeping rates low, supporting safer healthy communities, delivering the pedestrian footbridge in Lakelands and promoting buy local initiatives for small business.

I'll ensure high accountability in decision making.
